

# SE Boot Camp Assignment 5

Apply CSS Modal Window to make a web page as below:

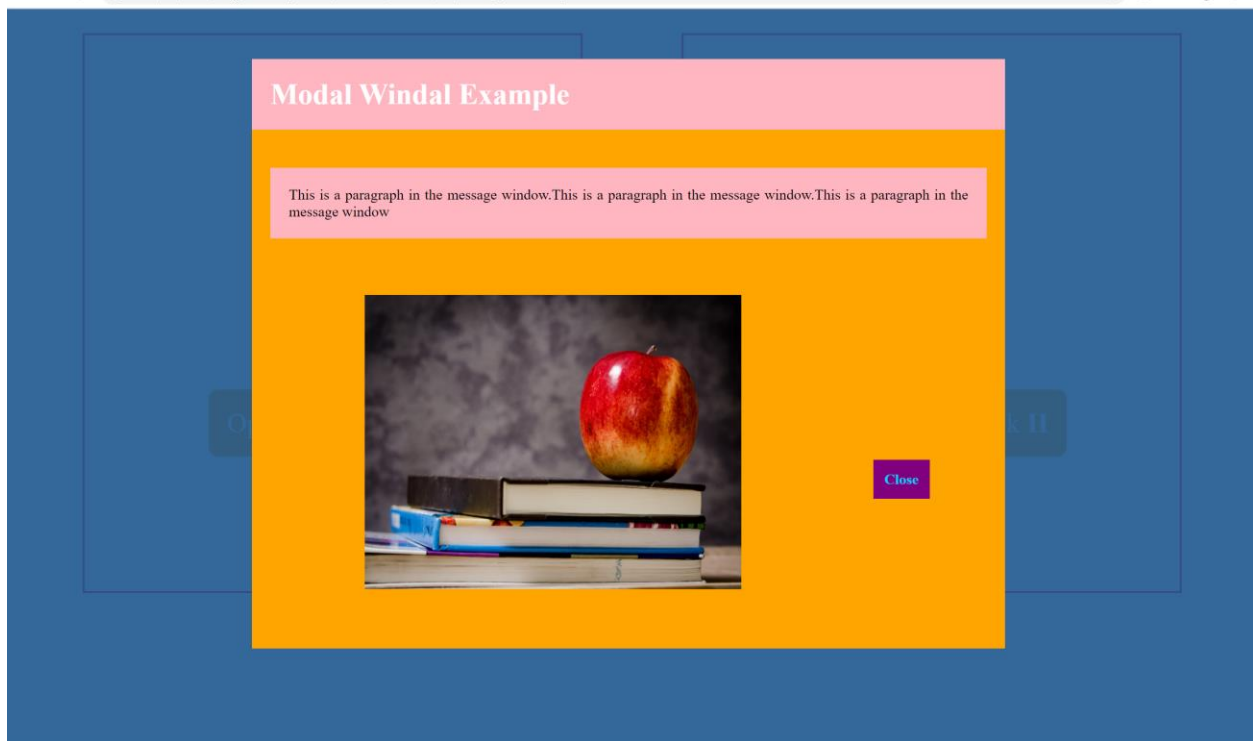

Requirements:

- Based on the practice in the class, add one more link [Open modal Link II](#) to the main window. Each link belongs to its own red box. Each box can have more elements added (for instance, an image and some description).
- Click on [Open modal Link](#), Modal Window One (with transparent blue background) **gradually** shows as below. Click on [Close](#) to close the modal window.
- Click on [Open modal Link II](#), Modal Window Two (with transparent green background) **gradually** shows as below. Click on [X](#) to close the modal window.
- Use external CSS only. You can use your own image and your preferred color.

Main window:

## Modal Window One:

## Modal Window Two:
